Washington, DC 20554

Dear The Federal Communications Commission,

It has recently come to my attention that a new surcharge for telephone call cards is being considered. My wife and I feel quite strongly that this proposal should be rejected. We are retired and only have a limited use for long distance service. This new surcharge will very likely make my current service unaffordable.

The flat fee proposal you are considering will make the primarily residential customers bear the same universal service fund burden as a high-volume residential or business customers. This is totally unfair!

I use my call card (AT&T) and TracFone wireless for emergencies, safety, and driving security. WE do not want to lose these benefits so that the bigger users can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Lynn Walker
